

Installation Instructions

DUST COLLECTION SYSTEM FOR RO/DA Sanders/Grinders

1 The Dustie RO/DA dust shroud comes with a flexible dust shroud and band clamp. It fits most popular makes and models of RO and DA sanders/grinders.

2 Begin installation by slipping the band clamp over the Dustie RO/DA collar.

3 Slip the collar over the neck of the RO/DA sander/grinder and tighten the band clamp using a philips screwdriver. Position the vacuum port underneath the air hose connector.

4 Use a spanner wrench to hold the arbor in place while installing the pad.

5 Hand tighten the pad using the spanner wrench.

6 Inset the 18 inch converter hose into the port of the Dustie.

7 Connect the other end of the 18 inch converter hose to the main hose of the vacuum.
